Smart Contract Developer at BehindMasksSociety

January 2022 - currently

Description

You can find my work at: <https://www.behindmaskssociety.com> .

Contracts at:

- <https://polygonscan.com/address/0xe0ad9d4503213e61475850ad74e13b3d7a856526>
- <https://polygonscan.com/address/0xf62f94d8d52206bdf1d687e3cff0299471b75ca0>
- <https://polygonscan.com/address/0x6baabebfb0ee3fa17a4ef3427b0f59d82ccee7>

With Solana I have created some NFT's but only for test purpose to understand what is the difference between solidity and rust.

I have been working with truffle, hardhat for creating contracts and testing the logic of the contracts on local network.

During this time I have created solidity smart contracts for video NFT's, music NFT's and images, and a program for deploying on Solana test network.

You can find some of my work here:

<https://mintbnm.behindmaskssociety.com/>

<https://mintbnm.behindmaskssociety.com/>

I have build a minting game, you can find it at:

<https://droplistbmws1000rrcouple.behindmaskssociety.com/>

I have been working with hardhat and done tests automation on local network.

I have been working with remix as well.

Tech-Lead Capgemini - Fineos Team

January 2020 - January 2022

Valencia - ES

Description

- Providing maintenance for a healthcare company located in US called MedLife;
- I have been leading a team formed of 9 members;
- We have been working Agile close with the scrum master by using Jira;
- Taking part in the meetings with the client to establish the new workload and agree or not with client requests;
- Help the new joiners to setup their environment and provide full support (help them to understand their task) when needed;
- Database maintenance;
- Fixing bugs together with the team, related to the MedLife website most of the time and adding new functionality when needed;
- Working with Amazon Web Services, data tools, creating new pipelines.
- Working with Jenkins to do deployments, together with AWS.

- Creating Jira tickets for the members;
- I have been working with Docker for simulating applications;
- I have some microservice experience working with Quarkus.

- Conflict management;

How you improved the profitability or success of the company where you worked at?

- I have automated couple of projects which shorten the production time;
- I got involved in helping other teams in different projects;

Recommendations (in)

Ioana Popescu

Managed Marketing Services Director

June 23, 2016, Ioana managed Daniel directly

“Daniel has been with Harte Hanks Romania for almost 5 years and it was definitely a great collaboration. He is tech-savvy, seeking new self-development opportunities and always going the extra mile when needed. Maybe one of his best assets is that he got involved in helping other teams with small software development tasks to ease their work and he was a real team player on which you can rely. He has been flexible and adapted easily to changes in organization and job requirements. Would be happy to have him part of our team again. “
